To the U.S. Antitrust Devision,

Take a real good look around you, what do you see ???  
Monopoly after Monopoly, Hardly any competition.

A BIG RECESSION

This settlement is NOT in the best intrest of the people.  
YOU can change it to be much better than what it is.

IF you don't, we will continue to see lay-off after lay-off.  
We will continue to see Microsoft stifle competition.  
We will continue to have very few choices.

Microsoft is TOO BIG to ignore.

It continues to get it's fingers and roots into everything.  
Can't you see that ??? If you can't you must be blind.

It is so obvious, even my 3yr old can tell.

So, Make the right choice.....Give the people a better solution.

And do something right for America.

You do love this country....don't you ????
